SAINT-PÉRAY 'LIEU-DIT HONGRIE'

DETAILS OF PRODUCTION

This 62 ha vineyard of rugged hills of granite overlaid with silt, loess and limestone debris stretches on the two communes of Saint-Péray and Touloud in the Ardèche department. Grapes are taken from eroded granite soil, which is East, South-East facing.

The crop is hand-harvested and the whole bunches are pressed. Fermentation is performed in temperature controlled (17°C) casks with natural yeasts. The wine is aged in 600 litre-barrels for 8 months, and then for 2 months in vats.

TASTING NOTES

Golden yellow colour with green lights. A fresh nose of roasted notes, brioche and aromas of white-fleshed fruit, fennel and honeysuckle. Suave and well-balanced in the mouth. The wine is rich with great persistency, and slightly roasted and aniseed aromas.

HOW TO SERVE

Pour to accompany oven roasted or barbequed monkfish with a lemon and herb dressing.
